	Complaint

**Summary Description of the IPAC Lapse**

As a result of a complaint, York Region Public Health conducted an inspection at the premise on June 14, 2022. York Region Public Health noted concerns with reprocessing and subsequent re-use of critical and semi-critical dental equipment/devices designated as single use only. Newly purchased, non-sterile critical and/or semi-critical dental/medical equipment/device were not always reprocessed prior to use as indicated on the packaging. The dental/medical equipment/devices were not always pre-cleaned (e.g., wiped, gross soil removed manually) immediately after use (at the point of use) before transport for further manual or mechanical cleaning. Cleaning equipment (e.g., brush) were not always cleaned, disinfected, dried, and stored after each use or else discarded.

<b>IPAC Lapse Investigation</b>	<b>Yes</b>	<b>No</b>	<b>N/A</b>	<b>Please provide further details/steps</b>
Did the IPAC lapse involve a member of a regulatory college?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
If yes, was the issue referred to the regulatory college?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Royal College of Dental Surgeons of Ontario
Were any corrective measures recommended and/or implemented?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Please provide further details/steps	<p><b>Corrective measures:</b></p> <ul style="list-style-type: none"> <li>Cease reprocessing and/or re-use of critical and semi-critical dental/medical equipment/devices labelled as single use.</li> <li>Ensure all newly purchased, non-sterile critical and semi-critical dental/medical equipment/devices are inspected and reprocessed prior to use, according to their intended use, as per Manufacturer's Instructions for Use (MIFU).</li> <li>Ensure each package is always labelled with date processed, sterilizer used, cycle or load number and the health care provider's initials in a manner that does not puncture or dampen the package. If the dental/medical equipment/devices are not visible (e.g., wrapped cassette), package contents are labelled.</li> <li>Ensure immediately after use, the dental/medical equipment/devices are pre-cleaned (e.g., wiped, gross soil removed manually), at the point of use, before transport for further manual or mechanical cleaning.</li> <li>Ensure cleaning equipment (e.g., brushes) is in good repair, and at minimum, cleaned, disinfected, dried, and stored after each use or else discarded.</li> <li>Ensure there are written policies and procedures for all aspects of reprocessing that are based on current recognized standards/recommendations/MIFU, and these are reviewed regularly and/or as new information becomes available.</li> </ul>			

### Infection Prevention and Control Lapse Report

**IPAC Lapse Investigation**

Yes	No	N/A	Please provide further details/steps
-----	----	-----	--------------------------------------

- Ensure there is policy and procedure regarding single-use dental/medical equipment/devices.

Date any order(s) or directive(s) were issued to the owner/operator (if applicable) 2022-06-16

#### Initial Report Comments and Contact Information

Any additional Comments: (Please do not include any personal information or personal health information)

York Region Public Health issued an order to the premises on June 16, 2022, outlining corrective measures to be implemented. Follow-up re-inspection was pending at the time.
